Kunal Goyal

Web Developer

Motivated and innovative computer science graduate with passion of coding and problem-solving seeking for the role of web developer. Eager to utilize my strong creative skills and a continuous learning mindset to contribute as frontend developer. Adept at collaborating with cross-functional teams to develop efficient and user-friendly websites. Excited to embark on a dynamic journey in the tech industry, dedicated to delivering high-quality solutions and positive impact user experience.

Experience

2023 - currently Working

Microcosmworks , Chhatarpur, New Delhi

Software Trainee

- Engaged in a comprehensive Web developer training program, gaining practical experience in creating interactive and responsive websites.
- Collaborated closely with experienced developers and mentors to acquire industry best practices, coding standards, and efficient problem-solving techniques.
- Actively participated in team projects, contributing to the design, development, and testing of software solutions.
- Developed proficiency in various cutting-edge technologies and tools, including version control, debugging, and software testing.
- Gained exposure to real-world projects, emphasizing the importance of writing clean, maintainable code and adhering to coding conventions.
- Acquired hands-on experience in time management, project planning, and adapting to evolving requirements.
- Developed a well-rounded skill set beyond coding proficiency, including collaboration, communication, and accountability for software quality.

2022 - 2023

SkyWaltz, Jaipur

Portfolio

Soft Skills

- Communication Skills
- Problem-Solving
- Leadership
- Time-Management
- Creativity
- Teamwork

Projects

E-Commerce Website

- **Vue.js Integration:** Designed and developed a feature-rich eCommerce website utilizing Vue.js, a progressive JavaScript framework, to enhance user interactivity and create a seamless shopping experience.
- **API Integration:** Integrated RESTful APIs to fetch and update product information, cart data, and user details, ensuring smooth communication between the front-end and back-end systems.
- **User Authentication:** Implemented secure user authentication using Vue Router and integrated JWT tokens, enhancing the website's security and protecting user data.
- **Shopping Cart Functionality:** Developed a robust shopping cart system with Vue's reactivity, allowing users to easily add, remove, and update items in their cart.
- **Payment Gateway Integration:** Integrated payment gateways for secure and convenient online transactions, ensuring a smooth and trustworthy checkout process.

Personal Portfolio

- Designed and developed my portfolio website from scratch using JavaScript, HTML5, and CSS3.
- Employed JavaScript for smooth page transitions, dynamic content loading, and an interactive navigation menu.
- Ensured a responsive design for optimal viewing on various devices.

Media Connect Blog generation

- **React.js Integration:** Designed and developed a feature-rich blog generation website utilizing react.js, a progressive JavaScript framework, to enhance user interactivity and create a seamless blog and image generation using OpenAI.
- **OpenAI Integration:** Integrated OpenAI's DALL·E, a state-of-the-art image generation model, into a blog platform to enhance content creation and visualization.
- **User Authentication:** Implemented secure user authentication using JWT tokens, enhancing the website's security and protecting user data.

Declaration

I hereby declare that the information provided in this resume are true and accurate to best of my knowledge.
